Explore contemporary social issues and concepts of social responsibility, and gain an understanding of the ways in which we interact with, monitor, shape and modify these issues.

Underpinned by a strong social justice perspective, the BSocSc is ideal if you are wanting to effect change and lead innovation in a social context. It will challenge your thinking about the world and the people who live in it.

Better yet, as part of your degree you will complete work placements meaning you’ll graduate with practical work experience and industry contacts.

The majors within the BSocSc offer many pathways to the career of your choice. Select a major to build a degree that suits your needs.
